Above you may find the courses and the semester in which they are usually offered. Those in black fonts are usually offered every year. Those in red fonts are not usually offered every year. Erasmus students who are planning to study for a semester at American College are advised to select the courses they would like to study based on the above information and complete a learning agreement based on the above. The week before classes start in a semester, a student may have to revise the courses he/she will take based on which courses are actually offered in a semester and based on the days and time these courses are offered. If the courses a student will eventually take differ from the ones written on his/her learning agreement he/she will have to get his/her home institution approval for the change, revise his/her learning agreement accordingly and have it signed.
